## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1 April 2005 has been entered in which claims 1 and 18 have been amended. Claims 1-18 are pending.

### ***Response to Arguments***

2. Applicant's arguments, see pages 7-8, filed 1 April 2005, with respect to claims 5, 6, 11 and 12 have been fully considered and are persuasive. The 112 rejection of claims 5, 6, 11 and 12 has been withdrawn.

### ***Allowable Subject Matter***

3. Claims 1-18 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Claims 1-18 are allowable over the prior art for at least the reason that the prior art fails to teach and/or suggest a pair of range binoculars including "a main case accommodating said first optical, first objective optical system, first ocular optical system and said second objective optical system, wherein said first optical, first objective optical system, first ocular optical

Art Unit: 2872

system and said second objective optical system are fixed in said main case so that they do not move when pupil distance is adjusted” as set forth in the claimed combination.

Yanagisawa, US 5,071,242, discloses a pair of binoculars (fig. 55) with a main case accommodating (832a, 848, 847b) said first optical member (prisms in 848), first objective optical system (833), first ocular optical system (in 847b) and said second objective optical system (prisms in 836) and an attached case (836, 832b) accommodating said second ocular optical system and said second optical member, said attached case being placed on said main case so that said attached case can be turned round said second objective optical axis (column 22, lines 61-68) but does not have wherein said first optical, first objective optical system, first ocular optical system and said second objective optical system are fixed in said main case so that they do not move when pupil distance is adjusted as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
